Full TTE Exam

- Parasternal long axis view +/- color
 - M-mode
 - Mitral valve (end-point septal separation)
 - Aortic valve
- Right ventricular inflow +/- color (CW Doppler for TR velocity)
- Parasternal short axis
 - Tricuspid valve ((CW Doppler for TR velocity))
 - Aortic valve (color)
 - Main pulmonary artery (VTI, AT; if regurgitation, then CW of regurgitant jet)
 - Mitral valve
 - Mid ventricular level
 - Apical ventricular level
- Apical 4 chamber
 - Color (MR/TR velocity (CW))
 - Mitral valve inflow (PW)
 - Tissue Doppler annulus mitral valve (medial/lateral)
 - Pulmonary venous inflow
- Apical 5 chamber
 - VTI
- Apical 2 chamber +/- color
- Apical 3 chamber +/- color
 - LVOT VTI (PW)
- Subcostal long axis
- Subcostal short axis
 - Subcostal pulmonary artery +/- color
 - Acceleration time MPA (PW)
- Inferior vena cava
 - Hepatic venous Doppler (PW)
- Supraclavicular aorta (optional)
